### SKILLS

UX Research  
UI & Visual Design  
Information Architecture  
Storyboarding  
Wireframing  
Interaction & Motion Design  
Design Systems & Prototyping  
Usability Testing  
Workshop Facilitation & Co-creation  
Branding & Visual Identity  
Photo & Video Editing  
Advertising Materials & Print Production

### DESIGN TOOLS

Figma  
Miro / FigJam / Slack / Milanote  
Notion / Jira / Trello  
Whimsical  
Maze / Useberry  
Zeroheight / Zeplin  
Basic HTML & CSS  
Adobe CC (Ai, Ps, InD, PP)  
Wordpress + Elementor  
AI for Design  
Latex, Microsoft/OpenOffice

### PROFILE

I am a Biomedical Engineer with a Master's in UX/UI and Graphic Design, bringing over 3 years of experience in creating meaningful and user-centered digital solutions. At UPM, I strengthened my ability to tackle complex challenges and transform ideas into practical designs. Beyond professional work, I have undertaken personal projects such as directing a theatre play from branding to stage production and organizing large-scale events, which expanded my creativity, organization, and end-to-end project delivery skills.

### EDUCATION

#### Master's degree in UX/UI and Graphic Design | OCT 2021 - JUN 2022

CEI, Centro de Estudios de Innovación  
Adobe Authorized Training Center

#### Bachelor of Biomedical Engineering | SEP 2016 - JUL 2021

UPM, Universidad Politécnica de Madrid  
ETSIT, Escuela Técnica Superior de Ingenieros de Telecomunicación

### EXPERIENCE

#### LifeSTech Research Group (ETSIT-UPM)

*UX/UI Designer & Researcher* | MAR 2021 - PRESENT

- Designed **mobile apps** and **web dashboards** for healthcare solutions in European research projects, focusing on UX flows, information architecture, and interface consistency.
- Created **prototypes in Figma** and conducted **validation workshops** (on-site, hybrid, and online) with patients and clinicians, iteratively refining designs to improve usability and engagement.
- Facilitated **international co-creation sessions** with stakeholders worldwide, bridging user needs and technical development in multidisciplinary teams.
- Managed work packages, authored deliverables, and **presented project outcomes** in European Commission reviews, strengthening communication and leadership skills.
- Developed complementary design assets such as **presentations, project branding, and website implementation** to ensure cohesive visual communication across initiatives.

#### Internship in UCD Methodologies at LifeSTech

*UX/UI Research Intern* | OCT 2020 - DEC 2020

- Created and prototyped a **personalized interactive experience** for elderly participants, integrating physical and cognitive self-assessments with gamified activity circuits to encourage active and healthy aging.
- Applied **User-Centered Design methods**: personas, user journey, and prototype testing in the LifeSpace Living Lab at UPM.
- Years later, **published this work as first author** in EMBC 2023, (IEEE EMBS flagship conference).

#### Yawara-Jitsu Instructor

*Martial Arts Coach* | SEPT 2017 - PRESENT

- Taught children and youth (ages 4-16), plus intensive adult courses, fostering **patience, empathy, and communication skills**.
- Planned and led engaging training sessions, tracking trainees' progress.
- Collaborated with the Spanish Association for Bullying Prevention (AEPAE) in self-defense workshops.

### LANGUAGES

Spanish - native  
English - professional  
French - basic

### OTHERS

Driving license - B permission, own car  
Regional Professor of Yawara-Jitsu  
Monitor of leisure and free time
